BIRD FEEDER MADE OF ALUMINUM

(BOTTOM TRAY)

NO MORE DAMAGE FROM SQUIRRELS

- Lower housing part and catch tray made of robust aluminum – protects against gnawing by squirrels
- No food waste – seeds are collected cleanly, nothing falls to the ground
- Saves up to 50% on bird food by reusing collected seeds
- Squirrels can no longer destroy the feed silo
- Flexible suspension with sturdy wire rope
- Weatherproof – ideal for year-round outdoor use

FULLY ACCESSIBLE FOR NATURAL FEEDING

- Wire mesh feeder with collection tray
- Powder-coated steel mesh for durable, weatherproof outdoor use
- Open grid design for natural, easy feeding
- Removable ASA plastic roof for easy filling
- Secure, windproof roof keeps feed dry and in place
- Stainless steel hanging wire, compatible with Duplex hanging system
- Ideal for shelled peanuts and large seeds like sunflower seeds
- Very low food waste — no mess on the ground

Ideal bird feeder for seed- and nut-eating birds, year-round.

The feeder is built from powder-coated steel mesh with a removable ASA plastic roof and base, plus a stainless steel hanging wire for long-lasting outdoor performance.

Ideal foods include shelled peanuts and large seeds such as sunflower seeds. The mesh design lets birds feed naturally, while the collection tray catches loose shells and hulls — keeping the ground clean and food waste to a minimum.

The feeder attracts a wide range of backyard birds, including woodpeckers, nuthatches, chickadees, and blue jays.

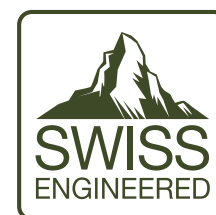

Hang it away from cats using the sturdy stainless steel wire, compatible with our Duplex hanging system for flexible placement.

Let yourself be enchanted by our feathered friends. A wide variety of birds will thank you and beautify your yard and patio with their charming presence.

ZUG

BIRD WATERER

Discover the perfect bird waterer for your garden!

It provides your feathered friends with fresh water and is a real eye-catcher. Robust, weatherproof, and easy to clean – create an inviting oasis for birds. Enjoy relaxing hours watching the colorful variety of birds!

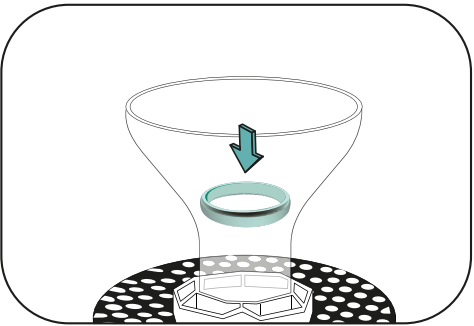

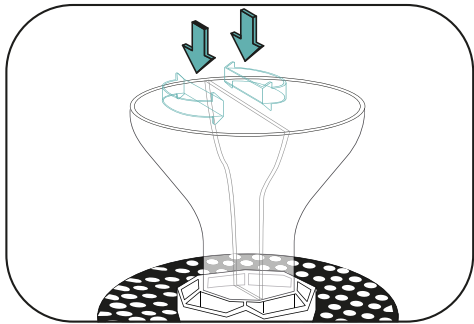

BIRD FEEDERS

ACCESSORY SETS

DUPLEX SET

SMALL SEED REGULATOR

Optimize your bird station with our practical accessory sets!

Combine two or more silo types with the duplex hanging set – this allows you to hang several feeding stations on a branch or stand in a space-saving way, and you offer your garden birds a varied, species-appropriate feeding all year round.

The optional regulator allows the flow of fine seeds to be specifically reduced – for a uniform and economical dispensing.
